PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence and Data Science student (expected May 2027, CGPA 7.30) seeking entry-level Python Developer, Junior Python Developer, and Backend Developer roles. Built Python web applications with Flask and FastAPI, including TaskFlow, a MySQL-backed task management app with REST APIs, user authentication, CRUD operations, and Google Gemini API integration. Completed internships in Java, machine learning, and AI data preparation.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL
Backend Development: Flask, FastAPI, REST APIs
Database: MySQL, SQL Queries, CRUD Operations
AI & Generative AI: Google Gemini API, Machine Learning, Scikit-learn
Web Technologies: HTML, CSS, JavaScript
Tools: Git, GitHub, VS Code, Jupyter Notebook

INTERNSHIP EXPERIENCE

AI Intern | *KG Genius Labs, Coimbatore, Tamil Nadu* Jan 2026 – Mar 2026

- Collected image datasets for object detection and AI model development.
- Annotated images with bounding boxes to create labeled data.
- Prepared and organized labeled datasets for YOLO-based computer vision.

Java Developer Intern | *Elysium Technologies, Madurai, Tamil Nadu* Jun 2025 – Jul 2025

- Developed a Java application applying object-oriented programming principles.
- Connected the application to a MySQL database using JDBC.
- Built a Library Management System implementing CRUD operations.

AI/ML Intern | *Elysium Technologies, Madurai, Tamil Nadu* Feb 2025 – Mar 2025

- Performed data preprocessing and transformation to prepare datasets for machine learning.
- Trained and tested machine learning models using Python and Scikit-learn.
- Evaluated models by comparing predicted results with actual outcomes.

PROJECTS

TaskFlow – Task Management Web Application | *Python, Flask, MySQL, REST API, Google Gemini API* GitHub

- Built a Flask REST API with MySQL for task create, view, update, delete, and status changes, with input validation.
- Implemented registration, login, password hashing, session authentication, and CSRF protection; tasks are user-scoped.
- Designed a MySQL schema with keys and indexes; implemented CRUD via parameterized mysql-connector-python queries.
- Integrated Google Gemini API for AI task suggestions; added analytics, Excel/PDF export, attendance tracking, and Pytest API tests.

AI Chatbot System | *Python, Flask, Google Gemini API* GitHub

- Developed a web-based AI chatbot application using Python and Flask.
- Built the Flask backend that receives user queries and returns responses within the application.
- Integrated the Google Gemini API to generate AI-powered responses to user queries.
- Applied prompt engineering with the Gemini API to shape the chatbot's generated answers.

YOLO Retail Product Detection System | *Python, YOLOv8, FastAPI* GitHub

- Developed a Python computer vision application to detect retail products using YOLOv8.
- Applied YOLOv8 object detection to locate and identify products.
- Built a FastAPI backend that serves model predictions to the application.
- Connected a trained computer vision model to a backend API service for model inference.

AI-Based Procurement & Supplier Analytics System | *Python, FastAPI, Vercel, Google Cloud* GitHub

- Built a web application for supplier analysis and procurement support using Python and FastAPI.
- Developed the FastAPI backend that powers the application.
- Created dashboards to present supplier and procurement data.
- Worked with Vercel and Google Cloud as part of the project's technology stack.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science Expected May 2027
Ramco Institute of Technology | CGPA: 7.30

Higher Secondary (Class XII) | *St. Michael Matriculation Higher Secondary School, Madurai* Percentage: 75%

CERTIFICATIONS

- Explore Machine Learning using Python – Infosys Springboard (2026)
- Introduction to Natural Language Processing – Infosys Springboard (2025)
- Data Reduction & Exploratory Data Analysis (EDA) – Infosys Springboard (2024)
- Data Visualisation: Empowering Business with Effective Insights – Tata (Forage) (2026)
